

IRONCLAD TRUTH

— Protocol for LLM Governance
& Error Blockade

Auditable Framework for
Risk Minimization of AI Text Systems

© [2026] **Bummer Florian.** All rights reserved.

This protocol ('IRONCLAD TRUTH') as well as all contents, structures and regulations are protected by copyright.

Reprinting, reproduction, distribution, translation or use in electronic systems – even in excerpts – only with written permission of the author.

IRONCLAD TRUTH™ – “Eiserne Wahrheit”

Reference-Only License (no implementation, no derivation)

Version 4.1 – 2026

© Florian Bummer, 2026

All rights reserved.

1. Subject Matter of the License

IRONCLAD TRUTH™ (“Eiserne Wahrheit”) is a copyrighted, audit-capable protocol for the governance, risk minimization, and error blocking of AI text systems (LLMs).

This license exclusively governs the permitted use of the protocol for **reference, analysis, and review purposes**.

This license **does not grant any right** to implement, reproduce, derive, or operationally use the protocol – neither in whole nor in part.

2. Type of License

This license is:

- not an open-source license
- not an implementation license
- not a further-development license
- not a commercial use license

It is **non-exclusive, non-transferable, revocable, and strictly limited to reference purposes**.

3. Permitted Uses (Reference-Only)

The following uses are **explicitly permitted** under this license:

3.1 Quotation and Referencing

in:

- scientific publications
- regulatory analyses
- audit, governance, or risk documents
- professional articles, presentations, and lectures

only with full and clear source attribution, at a minimum:

IRONCLAD TRUTH™ – “Eiserne Wahrheit”

3.2 Analysis, Discussion, and Criticism

- publicly or internally
 - including comparative analysis with other governance, safety, or compliance approaches
- provided that **no implementation, derivation, or system reproduction** takes place.
-

3.3 Internal Evaluation Without Operational Use

for example:

- compliance preparation
- risk assessment
- regulatory gap analysis

without:

- implementation
 - simulation
 - productive application
 - training or fine-tuning of models based on the protocol
-

4. Explicitly Prohibited Uses

Without prior **explicit written permission** from the author, the following uses are strictly prohibited in particular:

4.1 Implementation

- in whole or in part
 - directly or indirectly
 - in software, AI systems, LLM pipelines, guardrails, agents, or prompt systems
-

4.2 Derivation and Reproduction

Any use in which:

- structure
- rule hierarchy
- mode logic

- evaluation paths
- combination of essential mechanisms

of IRONCLAD TRUTH™ are **recognizably adopted or replicated**, even under different naming or linguistic rephrasing.

4.3 Commercial Use

- sale
 - licensing
 - integration into products or services
 - marketing or promotion as “compatible with,” “inspired by,” or “comparable to”
-

4.4 Translation or Restructuring

- full or partial translations
- rewordings
- extraction of individual rule components
- modularization for reuse

(Excluded are short, clearly marked quotations for reference purposes.)

5. Protection of Essential Components

The following are considered **essential and protected components** in particular (non-exhaustive):

- the overall architecture of the protocol
- the mode separation (e.g., Knowledge: Evidence, Knowledge: Logic, LRHD, CSAT)
- the negative and blocking logic
- the rule hierarchy and prioritization
- the systemic combination of the addressed LLM error classes

A use is deemed **copyright-relevant** if there is no sufficient intellectual distance from the original structure.

6. No Implied Grant of Rights

The publication of IRONCLAD TRUTH™ – in whole or in part – does **not** constitute any implied grant of usage, implementation, or exploitation rights.

7. Revocation

The author reserves the right to revoke this license at any time in the event of a violation.
Unlawful uses that have already occurred remain unaffected.

8. Governing Law

The law of the Federal Republic of Germany shall apply.
Jurisdiction is – insofar as legally permissible – Germany.

9. Special Uses

Any use deviating from this license (e.g., implementation, pilot projects, regulatory integration) requires a **separate explicit written agreement** with the author.

Plain-Language Summary (non-binding):

- Reading: permitted
- Quoting: permitted (with attribution)
- Analyzing: permitted
- Implementing: prohibited
- Reproducing / rebuilding: prohibited
